

# 日本語

My country is Japan.  
Japan is located on the eastern hemisphere in the world.  
Japan is also located in south asia, Japan is near the north pacific ocean and mostly on the sea of Japan. Japan is also located near south korea.

My japan map shows we're Japan is located. The map also shows what its capital is and where it is. Japan is a very small country in world. my map also shows what oceans surround Japan. The Japan map shows other countries that are nearby.

This graph shows how japans pop ulation is goin going to increase and decrease. This graph explains how how in 2005 the population was increasing . This tghg graph also shows how population will ceres in2015.
